

DAVID ENDERS

david.georg.enders@gmail.com • 650-656-6863 • davidenders.me • github.com/davidenders11

EDUCATION

Claremont McKenna College, Claremont, CA

May 2024

Bachelor of Arts in Computer Science (Off-Campus Major at Harvey Mudd College)

- **Relevant Coursework:** Algorithms, Neural Networks, Advanced Data Structures, Computer Systems, Statistics, Programming Languages
- GPA 3.82

EXPERIENCE

Kargo, San Francisco, CA

July 2024 – Present

Software Engineer Level 1 (Edge computing)

- Design, implement and deploy end-to-end **edge software and configuration deployment** infrastructure leading to 4x release frequency and granular fleet status visibility
- Deliver **proprietary gRPC camera server** on Android-based camera clusters and associated custom deployment system, unlocking widened scope for edge compute and reducing hardware costs
- **Benchmark and validate various compute options** for edge devices including NVIDIA Jetson product line, modern mini PC with on-board NPU/GPU
- Develop and document revised process for **creation of OS images** for both edge products (tower and forklift), and own **redesign and implementation of manufacturing bringup** process
- **Implement shared Jenkins CI controller**, unifying fragmented CI/build pipelines

Factor Programming Language, Claremont, CA

Aug 2023 – May 2024

Open Source Contributor, Team Lead

- Rebuilt native arm64 compiler support for the Factor Programming Language with a team of four fellow students as a part of the Harvey Mudd Clinic Program
- Led the team for the second half of the program, coordinating with faculty advisors and liaisons

Samba TV, San Francisco, CA

May 2023 – Aug 2023

Software Engineering Intern

- Led ideation, design and implementation of a full-stack, AI-powered internal product for CEO
- Set up and maintained multi-environment CI/CD pipeline with automated unit testing
- 100% project completion adhering to original product requirements

Xos Trucks, Glendale, CA

Jan 2023 – Apr 2023

Software Engineering Intern

- Develop, test and provision OS for telematics device on battery-electric stepvans (C++, Yocto)
- Collaborate with frontend team to implement truck's wifi connectivity capabilities
- Develop service tool for truck diagnostics and software updates (Python)

Harvey Mudd Makerspace, Claremont, CA

Aug 2022 – May 2024

Makerspace Steward

- Master techniques and machines including soldering, welding, 3D printing, laser cutting, sewing, embroidery
- Manage inventory, repair machines, teach users and run workshops

Roberts Environmental Center, Claremont, CA

Aug 2021 – Dec 2022

Analyst

- Green Consulting Team: performed renewable energy industry research and recommendations for Sandbrook Capital VS, presented environmental education research for NatureBridge
- Natural Sciences Team: restarted Baldy Stream study, sampled and analyzed water quality
- Organized and facilitated Green Careers Conference, added 10 speakers to conference agenda

SKILLS AND INTERESTS

- **Skills:** Python, C++, Linux shell scripting, React JS, basic AWS services, git, Java (basic)
- **Spoken Languages:** German (native), Spanish (advanced)
- **Independent Projects:** Gmail Automation Tool (drafts AI-generated emails based on past interactions), ML research predicting California seasonal rainfall, Ski Bus Build (fundraised for, purchased and renovated an old school bus for use as a ski bus), Wordle game (implemented in pygame, rebuilt gameplay and a solver bot)
